

## Curriculum Vitae

SARA JAFFEE

May 2017

### **1. Biographical Data**

**Name:** Sara Rachel Jaffee

#### **Contact Information:**

Department of Psychology  
University of Pennsylvania  
425 South University Ave.  
Philadelphia, PA 19104

Phone: 215-746-4566

Fax: 215-898-7301

Email: srjaffee@psych.upenn.edu

#### **Education:**

BA (Psychology), Oberlin College, May 1994

MS (Psychology), University of Wisconsin, Madison, May 1996

PhD (Psychology), University of Wisconsin, Madison, January 2001

#### **Current Academic Appointment:**

Professor, July 2015 – forward, University of Pennsylvania, Department of Psychology.

Director of Graduate Studies, July 2015 – forward, University of Pennsylvania, Department of Psychology

Director of Undergraduate Honors Program, July 2012 – forward, University of Pennsylvania, Department of Psychology

#### **Previous Academic Appointments:**

Associate Professor, July 2012 – 2015, University of Pennsylvania, Department of Psychology.

Reader, September 2012 – July 2014, Social, Genetic, & Developmental Psychiatry Centre, Institute of Psychiatry, King's College London

Senior Lecturer, September 2007 – August 2012, Social, Genetic, & Developmental Psychiatry Centre, Institute of Psychiatry, King's College London

Assistant Professor, July 2003 – September 2007, University of Pennsylvania, Department of Psychology.

Research Associate, September 2006 – September 2007, University of Pennsylvania, Population Studies Center.

Postdoctoral Researcher, January 2001 – June 2003, Social, Genetic, & Developmental Psychiatry Research Centre, Institute of Psychiatry, London, UK, Environmental Risk Study and Dunedin Multidisciplinary Health and Development Study

## **Board Memberships:**

Faculty Director, Field Center for Children's Policy, Practice, and Research, University of Pennsylvania, April 2017 – forward

## **2. Grants, Fellowships, Honors, and Awards**

### **Grants Awarded:**

School of Arts and Sciences Faculty Working Group Award 2015-2017. PI Jaffee. *Building interdisciplinary collaborations to study effects of social disadvantage on the development of cognitive and non-cognitive skills.* (\$5,000)

NIA 1 R24 AG048081-1 Consultant Jaffee. 2014-2019. Co-PIs Heckman and Duckworth. *Research Network on the Determinants of Life Course Capabilities and Outcomes*

### **Grants Completed:**

University Research Foundation 2014-2015. PI Jaffee, *Change and stability in risk and protective factors.* (\$35,211).

Economics and Social Research Council RES-062-23-1583. 2009-2014. PI Jaffee. *Physiological and cognitive mediators of gene x environment interaction effects on children's antisocial behaviour.* (£866,016; \$1,362,063)

William T. Grant Foundation 10909. Co-I Jaffee. 2010-2014. PI R. Levine Coley. *Health risk trajectories across adolescence: Understanding gender differences.* (\$450,738)

Nuffield Foundation CPF/35191. 2008-2011. PI Jaffee. *Gene-environment interplay in children's resilience to harsh, non-supportive parenting.* (£186,407; \$293,141)

NICHD 1 R01 HD50691-1. 2005-2008. *Change and stability in resilience to maltreatment.* PI Jaffee. (\$231,000).

American Fellowship, American Association of University Women, 2005-2006. *The Poor Get Poorer: Identifying Children Who Are Vulnerable to Family Adversity.* PI Jaffee (declined).

NIH Loan Repayment Program, 2004-2008. Service grant to repay student loans in exchange for conducting clinically-relevant research.

### **Fellowships, Honors, and Awards:**

Fellow, American Psychopathological Association (APPA)

2007 Early Scientific Achievement Award from the Society for Research in Child Development

2006 Early Career Research Contributions Award from American Psychological Association Division 53 (Society for Child and Adolescent Clinical Psychology)

Dolores Liebmann Predoctoral Fellowship, September 1996 - August 2000

Phi Beta Kappa, 1994

### **Conferences Organized:**

Biennial Life Course Research Society Meeting, October 2012, Richmond-upon-Thames, United Kingdom.

### **Invited Presentations since 2011:**

Exposure to violence: Effects on health and risks associated with early puberty (February 2017). Criminology Colloquium Series, University of Pennsylvania

Effects of harsh and non-supportive parenting on children's stress reactivity and behavior (January 2017). Mortimer D. Sackler Winter Conference on Developmental Psychobiology, Providenciales, Turks and Caicos.

Integrating biological and behavioral levels of resilience: New directions for research (December 2016). Faculty of Social and Behavioral Science, University of Amsterdam.

Gene-environment correlation as a threat to causal inference (December 2016). Loebel Lecture Series, University of Oxford, Oxford UK.

The importance (and instability) of safe and supportive relationships for trauma-exposed children and adults (September 2016). Duke University Sanford School of Public Policy, Durham, North Carolina.

Person-environment interplay in generating vulnerability and resilience (May 2016). John Jay College of Criminal Justice, New York, NY.

Does marriage lead to reductions in men's antisocial behavior? (November 2015). Carolina Consortium on Human Development, UNC-Chapel Hill, NC.

Does marriage lead to reductions in men's antisocial behavior? (October 2015). National Institute on Aging, Reversibility Meeting, New York, NY.

Take your mind off it: Coping under stress and the serotonin transporter polymorphism (October 2015). Society for Neuroscience Annual Meeting, Chicago, IL.

The effects of family and neighborhood violence on children's development (April 2015). Merrill-Palmer Skillman Institute, Wayne State University, Detroit, MI.

The biological embedding of abuse and neglect: Implications for policy and practice (December 2014). Webinar hosted by the University-Based Child and Family Consortium.

Under what conditions do harsh and non-supportive environments affect children's physiological and behavioral development?: Results from the Children's Experiences and Development Study (October 2014). Stress Neurobiology Group, Children's Hospital of Philadelphia.

Under what conditions do harsh and non-supportive environments affect children's physiological and behavioral development?: Results from the Children's Experiences and Development Study (April 2014). Center for Human Potential and Public Policy, Harris School of Public Policy, University of Chicago.

Trajectories and turning points in men's antisocial behavior. (January 2014). Department of Psychology, Villanova University, Villanova, PA.

Using genetically-informed designs to understand the child's influence on the environment. (July 2013). International meeting on "The Influential Child", Institute for Advanced Studies, Hebrew University, Jerusalem.

The neurobiology of maltreatment. (June 2013). Convening on the mental health consequences of violence. Administration for Children, Youth, and Families, Washington, DC.

Effects of routine and catastrophic influences on the developing child. (June 2013). Expert meeting sponsored by the Administration for Children and Families, Washington, DC.

"Till a good woman's love made a new man of me": Marriage and men's antisocial behavior. (February 2013). Department of Criminology, University of Pennsylvania, Philadelphia, PA.

What has neuroscience taught us about maltreatment? (May 2012). Expert meeting on the neuroscience of maltreatment sponsored by the Administration on Children, Youth, and Families. Washington, DC.

How antisocial behavior shapes the environment (and the environment shapes antisocial behavior) (April 2012). Department of Psychology, Michigan State University.

Toxic stress and biobehavioral development. (March 2012). Public lecture sponsored by Cardiff University as part of an event called Changing Lives. Cardiff, UK.

Specifying the environment in studies of genotype x environment interaction. (February 2012). International expert meeting on Novel Directions in Research on Gene-Environment Interplay. Utrecht, The Netherlands.

How are genes involved in antisocial behavior? (May 2011). Wales Gene Park Public Discussion at Techniqest Science Centre "My Genes Made Me Do It." Cardiff, UK.

Challenges in identifying causal risk factors for children's conduct problems. (April 2011).

Mental Health Research Network Meeting, Cambridge, UK.

Approaches to studying gene-environment interplay. (March 2011). Society for Research in Child Development, Montreal, Canada.

The role of genotype in the development of psychopathology in maltreated children. (March 2011). American Psychopathological Association, New York, New York.

#### **Conference Presentations since 2011:**

Effects of relationship status and relationship quality on men's antisocial behavior (May 2016). Paper presented at the Life History Research Society meeting, Amsterdam, Netherlands.

Take your mind off it: Coping style, *5HTTLPR* genotype, and children's internalizing and externalizing problems (March 2015). Paper presented at the Society for Research in Child Development, Philadelphia, PA.

Effects of exposure to community violence on adult health (May 2014). Paper presented at the Life History Research Society meeting, Pittsburgh, PA.

Behavioral genetic approaches to identifying parent and child effects on children's antisocial behavior (November 2013). Paper presented at the American Society for Criminology, Atlanta, Georgia.

Effects of traumatic events on children's conduct and anxiety disorder symptoms are moderated by *FKBP5* genotype (April 2013). Paper presented at the Society for Research in Child Development, Seattle, Washington.

Interactive effects of early and recent adversity on cortisol reactivity in middle childhood (April 2013). Paper presented at the Society for Research in Child Development, Seattle, Washington.

Marriage and men's antisocial behavior (September 2012). Paper presented at the Biennial Meeting of the Life History Research Society, Richmond-Upon-Thames, UK.

Integrating neighborhood data in the Children's Experiences and Development Study (June 2011). Paper presented at the Stockholm Symposium on Criminology, Stockholm, Sweden.

Genetic and environmental transmission of risk for antisocial behavior. (March 2011). Paper presented at the Society for Research on Child Development, Montreal, Canada.
